The eternal race from bungalow to building and back to bungalow. "Where's that schedule? I forgot what class to go to, what room is it in?"

Summer vacation was the main topic of conversation and many students asked why it ended so soon.

That's what the first week of school was about, and was it an experience!

Chowdown

When you think about it, an half and hour isn't enough time for lunch. If you eat off campus you usually end up jogging to your next class and broke. If you eat on campus no matter how much time you have to eat, you usually end up with heartburn. If you have things to be done like, buying a football or dance ticket, or cashing a check, your lunch probably consists of, as little as a soda and a candybar. How about those of you who brown bag it, before you throw away that

me.
(Love
in case
you forget)

smashed, peanut butter and jelly sandwich, think about that starving child next to you... And then throw it away he/she is either on a diet or a football player.

And now get in there and fight, push your way through the crowded lunch lines, grab whatever comes into reach first. Run to the lunch tables and squeeze into the only seat you can find. Gobble down the food you never really taste, then join the stampede of people shoving their way to their lockers... Sometimes don't you wonder if eating is really worth all that!

1. Ready...set...go!
2. ...even from the rear!
3. Thank goodness for lunch!
4. "Of course you can take our picture."
5. Do you think I would eat school lunch?!
6. Melanie...surprise!
7. Yeah, it tastes good.

MIRA MESA

"A MELTING POT UNTO ITSELF."

VARIETY IS THE SPICE OF LIFE

When you think of a melting pot most people would figure a pot of different spices and ingredients. Like this is what M.M.H.S. is. Just look around you, you will find minorities of all different races Americans, Mexicans, Pan-asians and Blacks. Mira Mesa is known to have been a naturally integrated school. But what brought this about? The migration of the people from the congested city to the suburban. Where it began in the

community and ended with Mira Mesa High School. Many high school students didn't have a place to study so they were bused out to nearby schools in the district. Then finally our own school was completed. People started coming in from all over. For seeking opportunities and a better community. Many students arrive here from the student exchange program. Though this program we have Europeans such as the French and we've reached the point where we have students from Persia and Iran. Through the exchange student program and the growing population of our community we have equalized the many nationalities in our school.

1. Susan Lambert and Antnony Alonzo, say "Cheese".
2. Could it be the future "Greasers" John and Olivia?
3. Soul Brothers, David Saucedo and John Perez.

7. Drac Jones, Mike Fija, Roche Dungca, and Gi-B Dungca.
8. Is it true, do blondes really have more fun?

MIGHTY MARAUDERS

This is Mira Mesa's first year as a "true blue" high school. The Madison-Kearny spirit that people brought with them is gone, and along with that went, the seventh and eighth graders. Maybe this is the reason why for the first year, our spirit is truly sky high. There is a sense of togetherness throughout school and an atmosphere of involvement that is spreading like wildfire. Many more people are participating in extracurricular activities making them all the more a success. Athletes, cheerleaders, the drill team, and the band with the help of the students themselves, take their pride a step further when it comes to representing M.M.H.S. outside of Mira Mesa; a pride that has led us to become even mightier Marauders when the going gets tough.

1. The official auctioneer for the slave sale, Lance Pry, sells yet another person.
2. Hey Norm, when I say number you say 1, number....
3. Maurader spirit shines brightly for the Homecoming.
4. Sailors, Mike Madrid and Donna Sablan, have more fun.
5. A sign of the times.
6. Ol' Happy Face, Steve Kish.
7. Jess DeJesus and Rochelle Dungca; Are they as inseparable as it seems?

THREE YEARS...

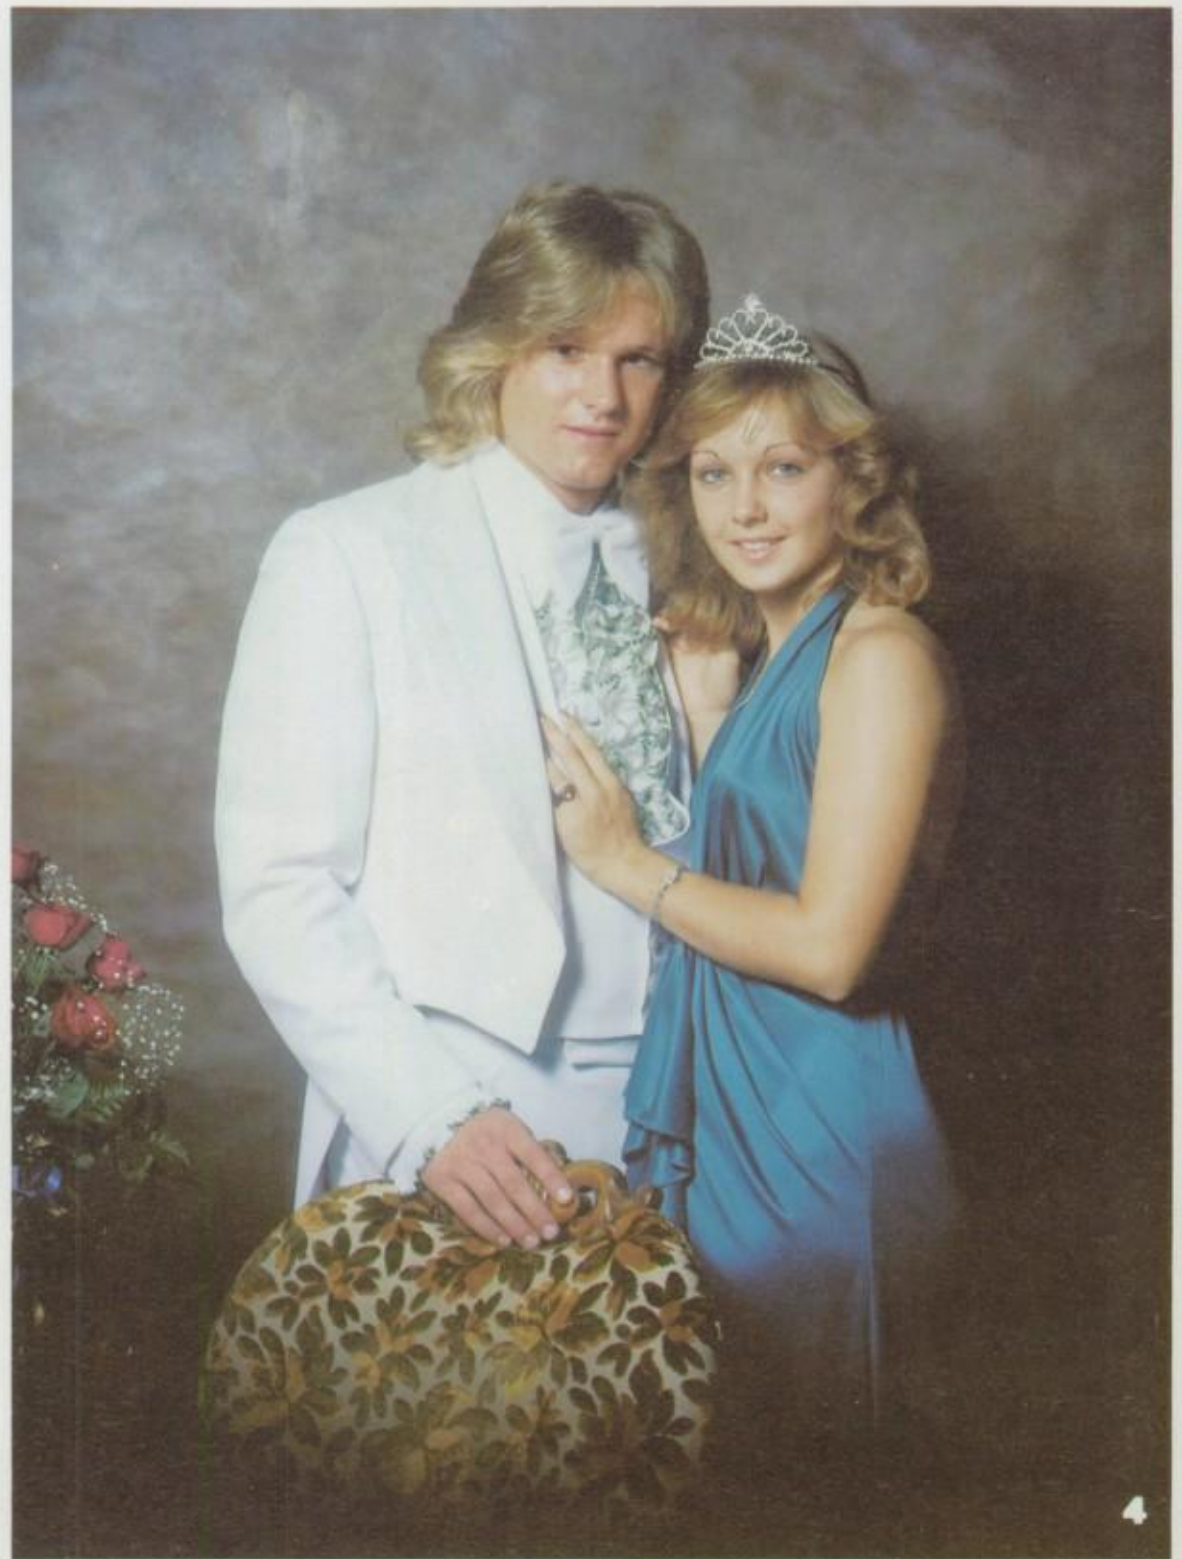

I was feeling nostalgic....it was Homecoming week. There I was dressed in blue and gold, pom-poms in hand cheering for my team, the Mighty Marauders. Sitting there in the stands, no one would have imagined I had already graduated from school. A few friends, two or three teachers, that's all that recognized me. Yet, I felt I belonged. So much has changed. I was proud to watch the band and drill team perform during half-time. They're wearing new uniforms. There was even a feature baton twirler and a

mascot. When the team scored a touchdown, I too jumped up and screamed "We're 1"! I was the crowd. Mira Mesa High is now three years old. I remember when we were first starting out...Coming Home.

CLASS LIFE

William Scott and Steve Trask eyeing someone through the camera, while being eyed.

It isn't exactly the place where everyone wants to be. But, if you can manage to get into a class of your interest, you just might enjoy school a little, and decide to come more often. Many different things go on in a classroom, besides the regular studies. For example; you have the people who lay their heads on their desks and go to sleep. Then you have the ninth graders, who throw airplanes across the room. You also have the people who can't control their talking. In some cases, there are students who are smarter than the teachers. Anyway, all of this is a part of class life.

Kevin Williams gives a friend a lift.

We know who is paying attention to the camera and not the teacher.

THAT'S ENTERTAINMENT!

Though many of you may not know it, there's a lot of unappreciated talent floating around school. Many people have no way of showing what they do best and one way is the Dance and Music Show. In its second year the Music Show was again a success. There were sell out crowds all three nights. With the Disco boom coming about, there were assorted dancing routines among them, square dancing, duets, tap and jazz interpretations and also tahitian dancers. There were two bands, mimes and a magic act. All in all there was something for everyone. Many hours were put into

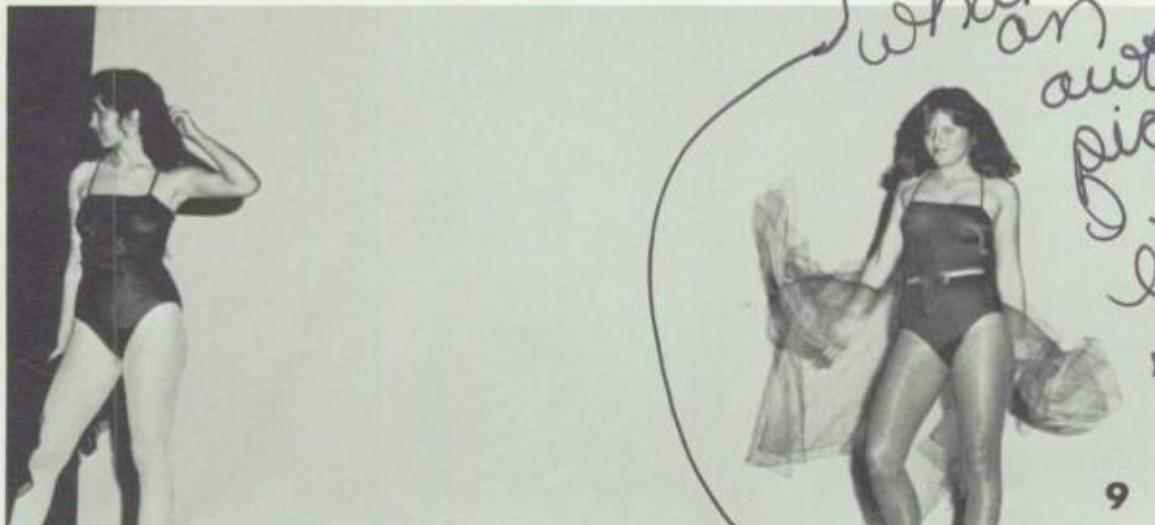

practicing, rehearsing and choreographing the acts. But it all paid off as the enthusiastic audience, made up of friends and well wishers, cheered on the performers to the final curtain call.

9. Diana Dykes and Torri Burnett performed a dazzling rock interpretation.

Pep Rallies For A ...

Pep rallies are a source of lunchtime entertainment here at Mira Mesa. Whenever a home or an important game is around the corner, a pep rally is almost always in the making. Formed to help keep students in touch with happenings around campus, the cheerleaders with the help of students and team members alike help to raise spirit. Performing skits and having contests induced participation from the audience, everyone cheering for a winning cause.

1. A demonstration given by the wrestling team to draw school interest for matches after school.
2. The Equal Rights Amendment takes a twist in the wrong direction for M.M.H.S.'s charettes.
3. Over popuation is a problem at Mira Mesa.
4. Pep rallys are a good place to make new acquaintances as Geoff Myers and Christy Rodrigues find out in a lifesaver contest.
5. Two marauders go for it all in a pie eating contest.
6. In full force, the '78-'79 cheerleaders lead a chant.
7. Varsity rah-rah Angie Lanning helps to raise the crowds enthusiasm.
8. Basketball players and cheerleaders alike put on a skit to "Short People."
9. Mira Mesa's first Mascot, Christy Horne.

...Winning Cause

1. Toilet papering, known as T.P.ing for short, is one of the most favorite mischievous doings of a group of Marauders. Attacks are on the rise, and during football season hardly a week went by without having heard of one or two startled victims.

2. The movies is definitely one of the biggest weekend endeavors. With so many new and good movies out Mira Mesans can be caught at almost any theater. And piling all the gang in the car to go to a Drive-in is another weekend pastime.

3. Catamaraning, a sport only a handful of students can enjoy. Shown here is Scott Thorton who, as many other people, rents a Hobie Cat down at Mission Bay on the weekends.

4. Moto-Cross is like many other activities, it requires a place to ride. But with Mira Mesa being the fastest growing community in San Diego a lot of Moto-Xers are finding their feilds are disappearing fast.

What did you do this weekend?

The weekend is a time to rejoice for almost everyone. It's a time to sleep in, relax, and/or get plain old radical (wild, insane, amped-out, fried, rowdy). Get the drift? So we sent out our photographers to find out what, exactly, Marauders do with their weekends.

5. Horseback riding is a sport that is equally participated in by everyone. If you own your own horse or rent your steed from the many stables in the area, the thrill of riding is tremendous.

6. The beach is one of the great entertainment values of San Diego. Surfing, sunning, socializing, seeing, and of course playing frisbee as Rich Bridges is doing. These

activities can be enjoyed year round, weather permitting. You may go day or night and still have a time well worth remembering.

7. Skiing is one of the fastest growing sports here on campus. With Big Bear being only four hours away many people steal away for the day or even a weekend. Mammoth and June Mountain are also excellent snowy hideaways within our reach. Skier fever is on illness many Marauders are being infected by.

8. Jet skiing is one activity not many people can indulge in, even though many would like to. The excitement of gliding across the water at speeds of up to 40 m.p.h is ever growing.

The Intercom Program

Intercom has come a long way since last year. It is now a success due to several changes. Intercom is defined as an 18 minute class which was mainly developed because many students and teachers alike were complaining of bad communications. Students were not being informed well enough of the events in school, graduation requirements, class offerings, etc. Since students don't get a chance to build a relationship with their counselor (due to the number of students each counselor has) they therefore have the opportunity to be with a teacher who's company they enjoy. It is also to provide students and teachers with opportunities to share interests, problems, and goals, and most important, to help us develop a mutual trust, understanding and responsibility. Something that many students don't realize is that they are receiving one half of a credit per semester.

On September 18, 1978, Intercom was introduced to students as a class that everyone would enjoy. Students were issued brochures, explaining briefly what all of the

teachers were offering. They had their choice of either an advocate class, an interest group, or a study hall. September 22 was the big day. Students were released second period only, for "Lawnchair Day." This is when all of the teachers brought lawnchairs and signs to publicize what they were offering for the all new intercom class. It was basically a fun time for everyone. Most students were in the group they wanted and many teachers were pleased to see old faces as well as new.

Advocate groups usually discussed things going on in school, such as events that were to take place. Study hall is a place where students get a chance to catch up on their homework or they can cram for a test. Last but not least, there are interest groups. This is where a group of students and a teacher share a common interest or hobby. A few of the interest groups are Disco Dancing with coach Lottermoser; T.V. Productions with Mr. Male and Ms. Benjamin; and Backpacking and Flying with Mr. Martinez.

1. Playing a quick game of solitaire.
2. Friends getting together and having a good time.
3. I've just got to think it over.
4. Mike acts his famous rendition of "I'm a Little Teapot" while Buddy watches his steam.
5. A dedicated skateboarder.
6. One of the kick back intercom classes at M.M.H.
7. What a drag!
8. Doing a last minute book report.

The Comprehensive Arts Variety Show, funded by the AB65 program at our school, proved to be quite interesting. It gave first and second year actors and actresses a chance to get stage experience before attempting "Oklahoma!", the second Comprehensive Arts production of the year.

AB65 set up the Comprehensive Arts program so that all arts students could get together to do productions. This produced an unusual and entertaining variety of acts.

VARIETY SHOW

1. Sharon Heiges doing a whiteface pantomime.
2. Comprehensive Arts teachers doing their own personal rendition of "The Dance of the Unhatched Chicks."
3. Sue Klisky, your friendly card girl.
4. Mira Mesa High's resident square dancers, the "Texas Twisters"
5. Tammy Ludwig singing. "The Man on the Moon is a Ms." and taking it literally.

Dick Morrow

Senior James Fay, is the editor of the Expressions Magazine. He also does illustrations for our yearbook, newspaper and of course Expressions.

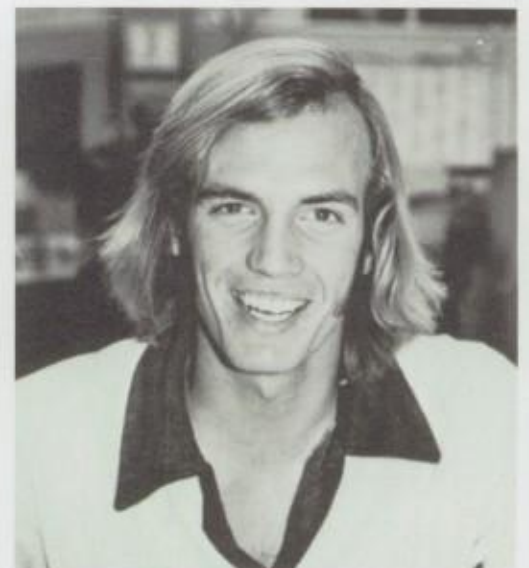

It is very common at high schools, for sports and athletes to get all the "glory". However here at Mira Mesa High School, we have a lot more to be proud of than just our athletes. Our school is full of talent, some is recognized but not given much credit. Most however isn't recognized at all. On these two pages are some of our schools most outstanding students in areas other than sports.

We've recognized as many people as possible but, for those whom we've missed we're very sorry.

Bob Follmer

Senior Bob Follmer is a tenor in our school Choir and Madrigals. He has also been in many drama/music department productions; Scrooge, The Wiz (as the scarecrow), Pirates of Penzance, Godspell, and Twelfth night. He has worked with the San Diego Opera, as an extra in their production of, Hamlet. Bob was also a soloist in this years Honor Choir.

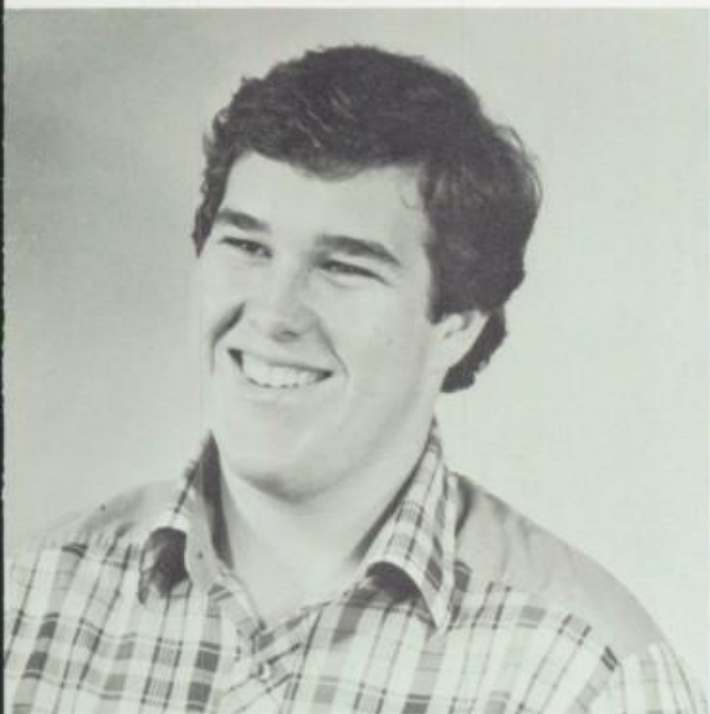

Senior Troy Delle, was on the yearbook staff for two years, the first as a photographer, the second as the Editor. Troy was also one of six from onehundred in San Diego picked for a special oceanography class at, Scripps Institute, last year.

Seniors Chris Navarro and Alicia Deleon, are Co-editors of our school newspaper. Chris has also written the sport section of a local newspaper called the Reporter.

Senior Chris Wood was involved in drama for three years, he is the sound man and MC for the drama department. He had parts in Romeo & Juliet (he was Romeo) and Twelfth Night.

Senior Mike Murphy was involved in drama for three years, he's been assistant director for such productions as; Twelfth Night, The Dance Show, Romeo & Juliet, Oliver, and Tom Sawyer.

Senior Lise McCoy was Juliet in our production of, Romeo & Juliet, she was also in Tom Sawyer. Lise is taking dance classes at the Old Globe Theater, and will be involved in their Spring Fair. Lise was also on the School Sight Council for, AB-65.

Senior Cathy Austin was Mrs. Smedly and Mr. Morgan's assistant with productions. She directed Pirates of Penzance, Scrooge, and assisted with Romeo & Juliet, and Tom Sawyer. Cathy was on the choir three years and is pres. this year. She was also picked for as a soloist for, Honor Choir, this year.

Freshman Wago Kreider was involved in many drama/music dept. productions; Pirates of Penzance (as Maj. Gen. Stanley), Twelfth Night, Scrooge (as Scrooge), and The H.M.S. Pinafore (as the Captian). He was in the school Choir and Madrigals, and is now a soloist in the, All City Choir.

Our Scholastic Standouts

Senior Tom Aanenson was picked for a work experience course at the San Diego Zoo Hospital. Only eight people were chosen from all of the San Diego County (four per semester). Tom worked with veterinarians on a volunteer basis, mainly with observations.

Senior Laura Deel took a ROP course in veterinary aid. Through her instructor she got a volunteer job at Sea World in the bird department. She is now in charge of a research experiment with an endangered species of cliff dwelling birds called "Puffins". Her job is mainly cleaning, feeding, and observing these and other birds.

"Smile, You're On Candid Camera!"

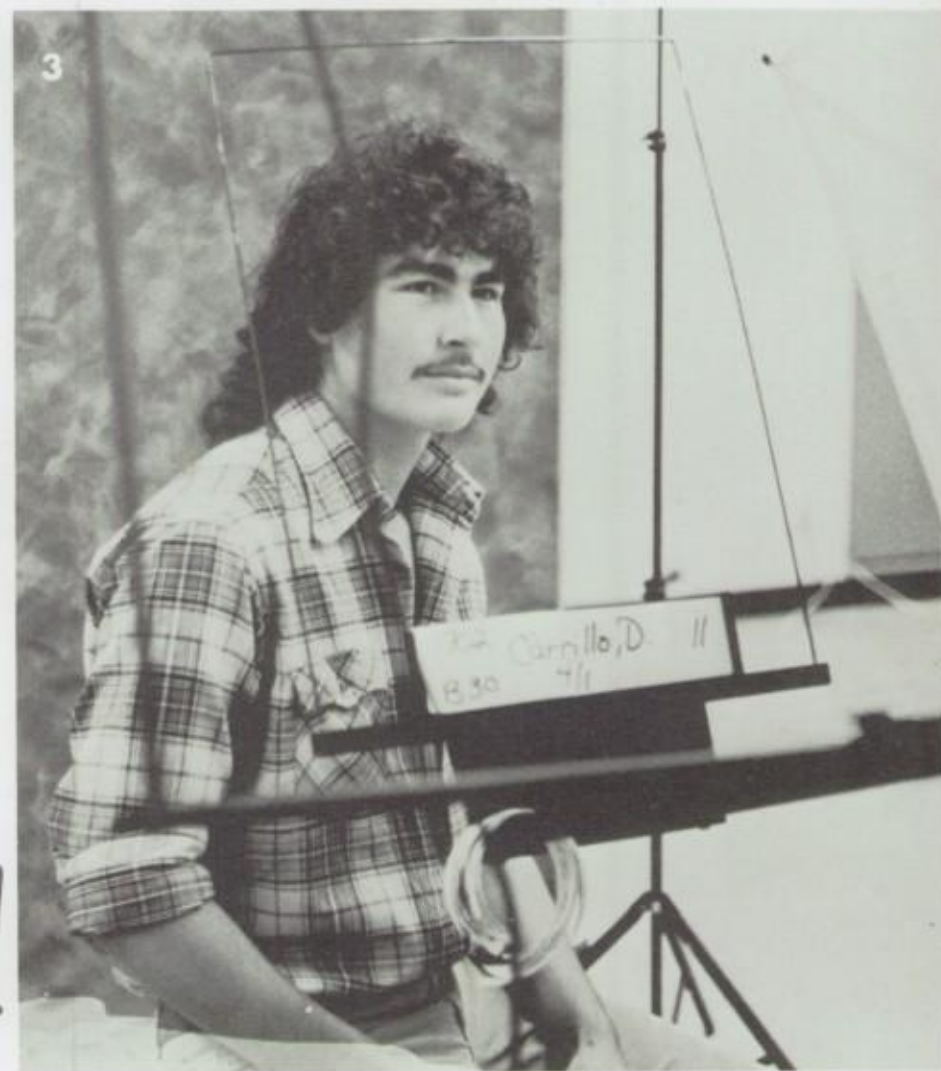

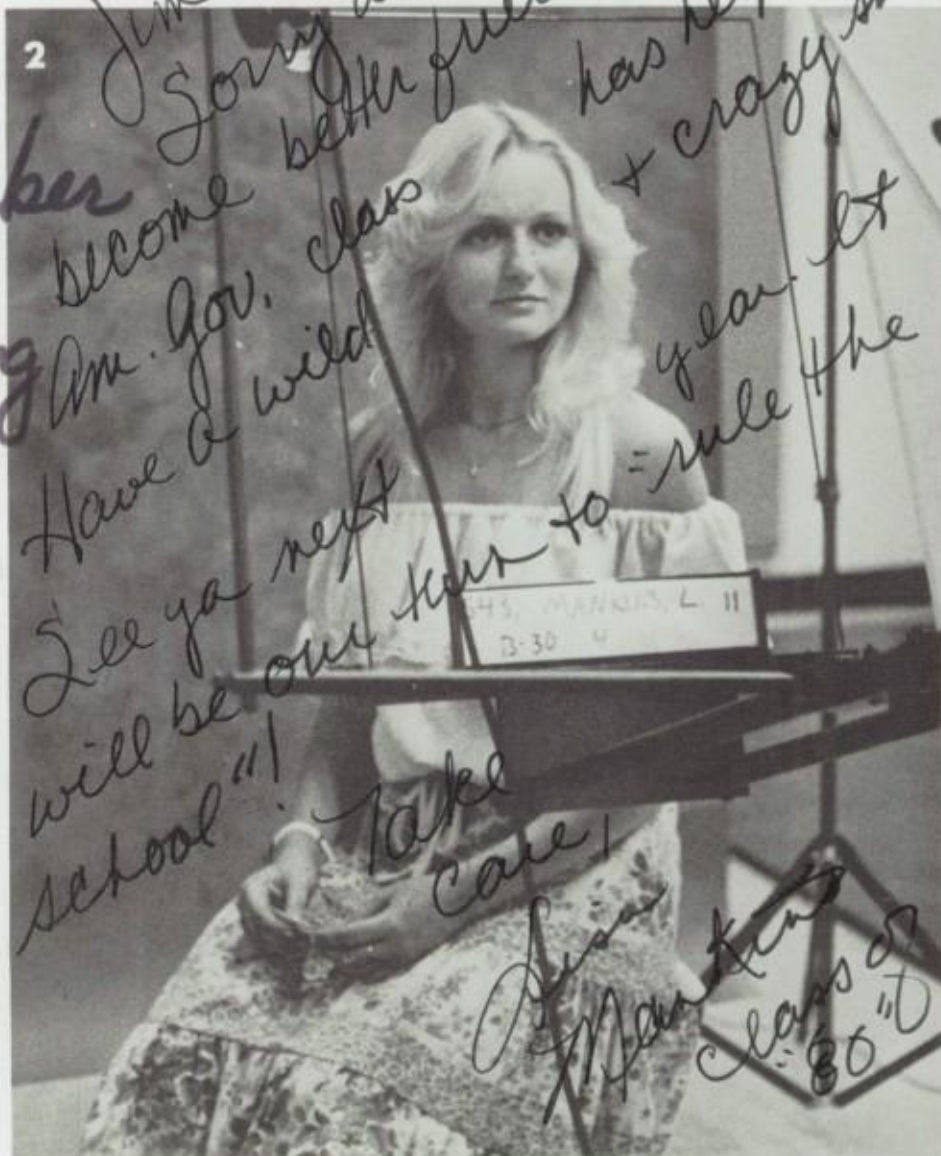

Dear Jim,
I will always remember
you and your good
sense of humor. Seeing
you each day has
made you a more
pleasant year.
Since we have
spent 2 hours each

Once a year, without fail, everyone has their picture taken. On this day make-up and hair are constantly checked. These pictures are used for I D cards as well as the yearbook (excluding seniors). This is the one time of the year when parents can order pictures taken by a professional photographer of their son or daughter. Its not often that parents get their kids to sit still in front of a camera to get a nice picture.

But, its these pictures which we look at in the years to come to remember our high school adventures.

This summer
has to offer
See you next year Luv!

I'm a Marauder

What do you think makes a Marauder? Many replied, "dedication, spirit and the willingness to go all out, just to help brighten the dull routine of the regular school schedule." But to me I feel that you don't have to go to such lengths to show that you're a true Marauder. A person can be a true Marauder just by being and doing what he feels fits his personal (type) daily life. And with a little extra effort to participate in a few pep rallies, dances, or even a couple of games to help support and cheer on our athletes.

Mira Mesa Goes "Disco-10"

After a year of Disco-10's existence the students at M.M. have been waiting impatiently for their turn on the television set. So on March 17, the students from our school showed their stuff. Here their disc jockey, Tony Maddox replied, "This school really has alot of spirit!"

Later on through the show they interviewed the current S.D. Padre short stop, Ozie Smith and his wife. Following the interview, the couple demonstrated their expertise foot-work by leading off the next dance. It wasn't long before our Marauders joined in the fun.

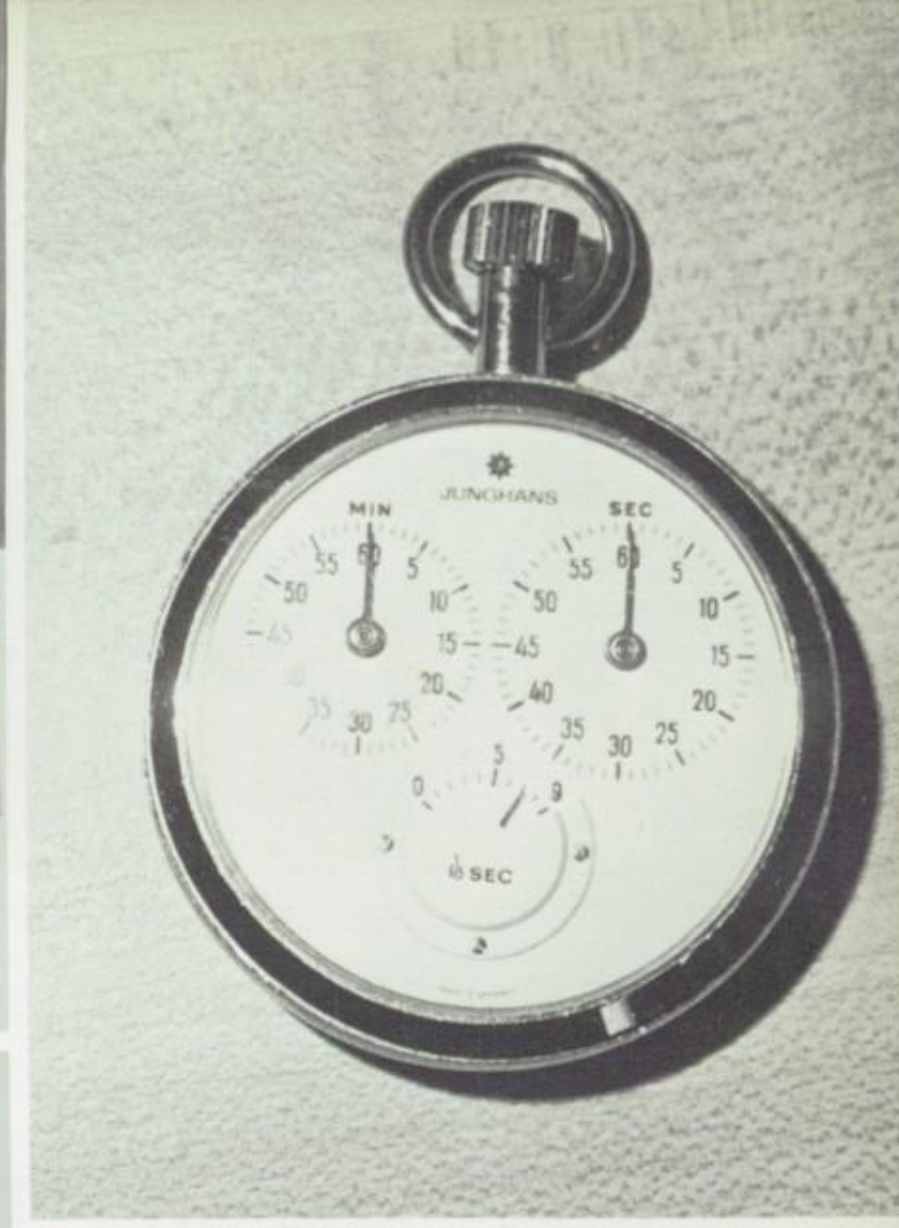

Towards the end of the showing they revealed Mira Mesa's four spotlight dancers; Rob Robinson and his partner Cindy Mueller, who

did a disco performance and Darryl Williams and his partner Tanya Pierre, who did their own unique routine.

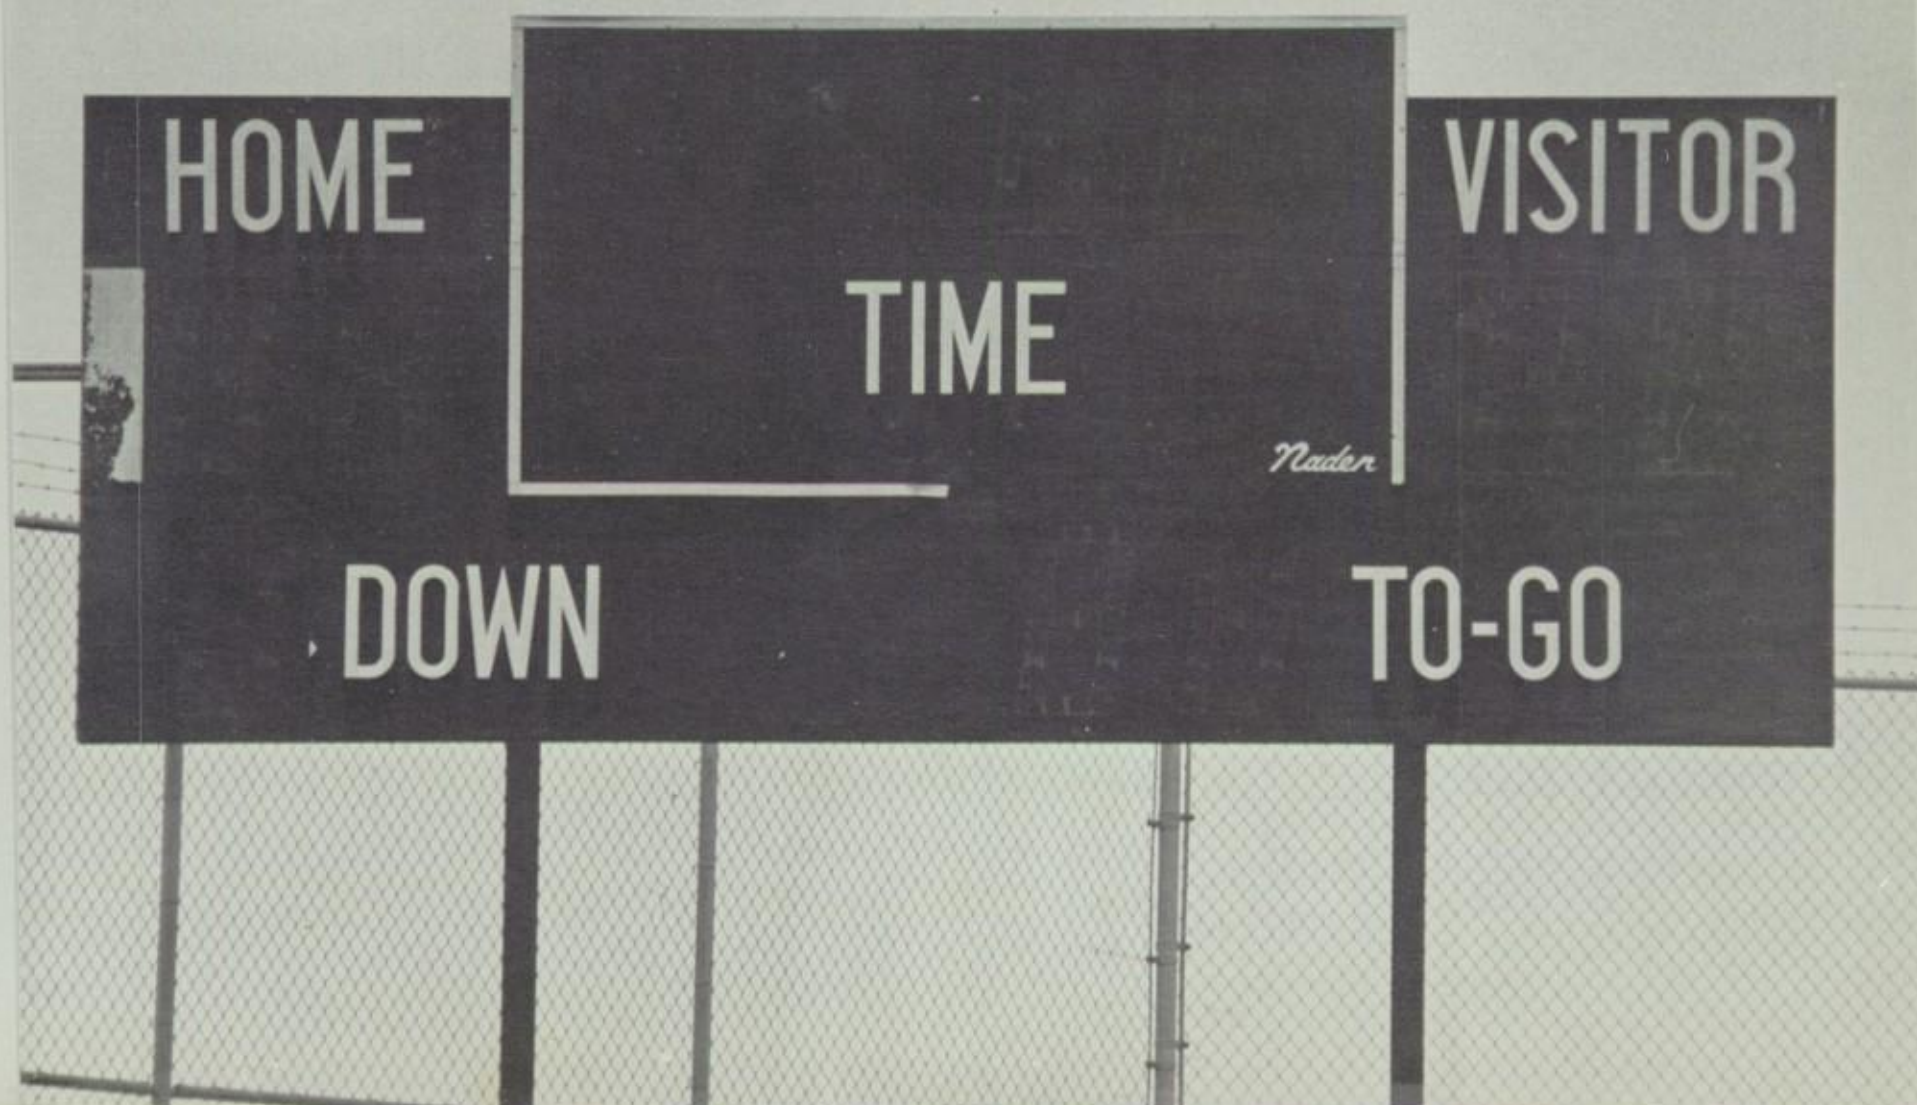

All in all the show was a success. After the taping the students were free to do whatever they pleased, to go out and celebrate or to go home and their last minute homework for the next school day.

1. Spotlight dancers Darryl Williams and Tanya Pierre.
2. Rob Robinson and Cindy Mueller show their stuff.
3. Mira Mesa Students get interviewed by "Disco-10."

time ... but we do have
DETERMINATION!!!**

Soccer, World's # 1 Sport.

This year's soccer team has been the strongest yet. With a Twelve win and two lose record they advanced to the CIF playoffs as Western League Champs. On the average, Mira Mesa's team scored over three goals per game and gave up only one. With seven returning starters our team will be na contender in next years Eastern League.

1. Willy Morcillo takes a shot on goal.
2. John Peterson against University.
3. Steve Vandenburg up-ends an opponent with a side tackle.
4. Fancy footwork by John Kelly
5. David Shook blasts the ball clear.
6. Thanh Stahnke with a pass up the wing.
7. Vandenburg on the attack.

Jim,
The only reason I'm signing here is because there wasn't hardly any other place too. We sure had a great time in Oklahoma. Stge Crew is so radical because we are always farting around, ~~for~~ poor old Morgan, he really got on our case too. Anyway good luck in 12th because with a face like yours, only a mother could love. (HAHA)
Stay cool & hang loose. Soccer is #1
Steve Johnson #12

J.V. SOCCER

J.V. Soccer is really improving this year. We were tied for second place with Madison and beat their undefeated team so went on to play La Jolla for first place. It's a very young team but has many returning players which really helped this year. We hope to see some of this experience on varsity next year.

This years Marauder Golf team is fortunate to have the returning abilities of five experienced lettermen. With knowledge of their capabilities, Coach McCoy is looking forward to another considerably good season. He feels that with these five lettermen; Dave Velasco, Jim Raeburn, Rick Hout, Steve Swaggerty and Jim Hunter along with the strength of many newcomers, the team will have no problems reaching the top.

The fun of it.

This year's Basketball team finished an impressive season record of twenty wins and seven losses. With returning letterman Chris Haupt, Steve Haupt, and Tony Heidenreich, Mira Mesa had a very good season. Under the coaching of the Sentinel-Kiwanas Coach of the year, Tim Cunningham, our team reached a League playoff for second place. With next year's team expecting seven returning players, which include two returning starters, the team should be league contender.

J.V. Takes It Away!

JV Basketball had an outstanding season this year, due to the great amount of talent, skill, experience, and over-all strength of the team. Almost every game played was won with strong, decisive leads. Much of the team's strength can be attributed to the experience of the members. Many of them were playing for the second year in a row including three starters.

Experience is one of the most valuable assets a team can have; but when it is combined with talent, team effort, and hard work, you've got a winning team. Coach Frank Fogianno, says, "We've got seventeen players with exceptional talent, and all seventeen are prepared to play mentally and physically every day." How could we possibly lose?!

1. Marauders on a fast break.
 2. Dell Fox has shot from the sidelines before the Escondido players even get near.

Girl's basket ball is becoming more and more popular each year, both as a participation and a spectator sport. The games look tighter and more proffessional as the girl's skill improves, and their ahrd work pays off. Because of this, their games drew some great crowd this year.

The team's record has improved over the last two years, due to the experience and talent of the members. Ronnie Olsen coached the eleven-member team, who except for one have all played in previous years.

1. Did she make a basket through all that confusion?
2. Karimah does a easy lay up

The game where ...

Despite the problems in their schedule, due to the rain, the Girls' Varsity Softball team started off with a well earned, 1-0, victory over University.

With a group as well spirited, hard working, and devoted as this years, Mira Mesa will have another strong season next year.

The team consisted mainly of players returning from last years team, which contributed to not having to go over different procedures for both games and practices. Fine performances were turned out by Lina Huff, Donna Sablan, and every other player on the team.

The girls' confidence and hard-work were two of the many reasons for a great Marauder Softball team.

Mira Mesa Junior Varsity Softball team had alot of potential this year. They started off very well, with a well earned victory over Orange Glen.

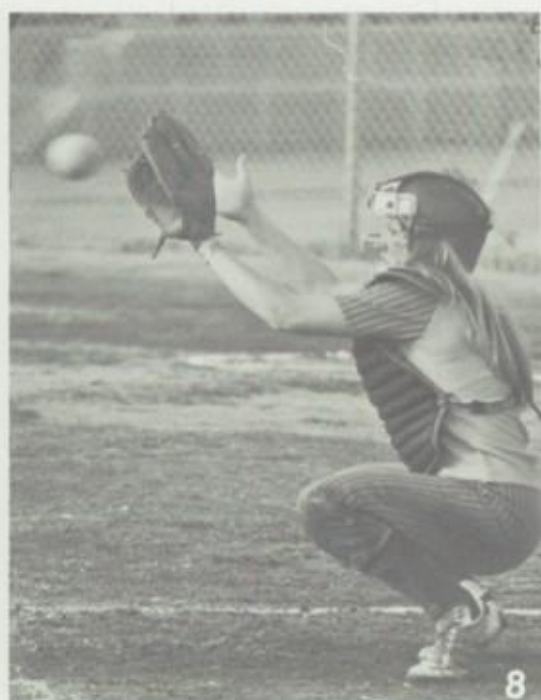

The greater the percentage of the team consists of Sophomores and new Freshmen.

All of the girls show alot of talent, skill and the ability to play for the Varsity team, which they are all looking forward to next year.

Swimmers

Our Aquatics expanded into a large hardworking and dedicated group. You would think it's all 'fun in the sun' but really the outcome is a very exhausting experience.

They begin their warm up everyday with 20 laps. Then from then on it's perfecting the strokes and building up speed.

Being on a swim team demands endurance and determination. This years swimmers have these and many other traits.

Girl's CC Runs To Victories

Although this is only the second year that girls have had their own Cross-Country team, they have had a very impressive year. The girls are not required to run a full three mile course as do the boys, instead they run a two mile course. They go through the same preparation and must show the same amount of effort and energy. The - record for the girls, proves that they, too, had a first rate season. They were admitted to the CIF finals and are looking forward to another victory.

Morgan - you know you're the one who gives Klopp the head jobs. It's unfortunate that I had to be in the same class as you. (joke)
Well good luck next year in wrestling.

P.S. - I look better than my sister..

P.S. Good luck giving Klopp head!

Your friend, Donald Burnett

Cross Country running is known to be one of the top sports, which requires not only team effort, but also individual achievement. Our Varsity team was dedicated to long hours of physical preparation for competition against others that go through the same routine. The team runs a 5.000 meter course, equalling approximately three miles. Though they must run individually against each other for the better time, the outcome of the meet will show the hard work, effort and togetherness of the team. Varsity's record was 2-6, while J.V. came up with a record of 8-0. J.V.'s hard work, energy and large team, led the team to be undefeated in the Western League and enabled them to be eligible to run in the CIF finals.

Considering the team is very young, Coach Lottermoser is hoping for another first rate season next year.

When football season arrives, that's when our school spirit really shines. Many students attend the games to cheer on the "Mighty Marauders". Football, just like any other sport takes a lot of dedication. Summer practices and drills are really showing this year. Our offense and defense are tremendous, along with our excellent receivers. We are a young team and have already made it to the C.I.F. playoffs. Along with our new members, our returning players have brought back much experience, which has added to our success. We are very proud of our team.

Just as important the girls are very enthusiastic, spirited and work well together. They have developed the team spirit that is so important to volleyball.

Mira Mesa can look forward to more improvement in coming years as many underclassmen have added their talent to the team this year. Their experience will be a great asset to the team in the next few years.

In addition to their talent, the girls are spirited and enthusiastic and participate together in different activities. In view of the many freshmen and sophomore members, the team can look forward to continuing their outstanding record next year.

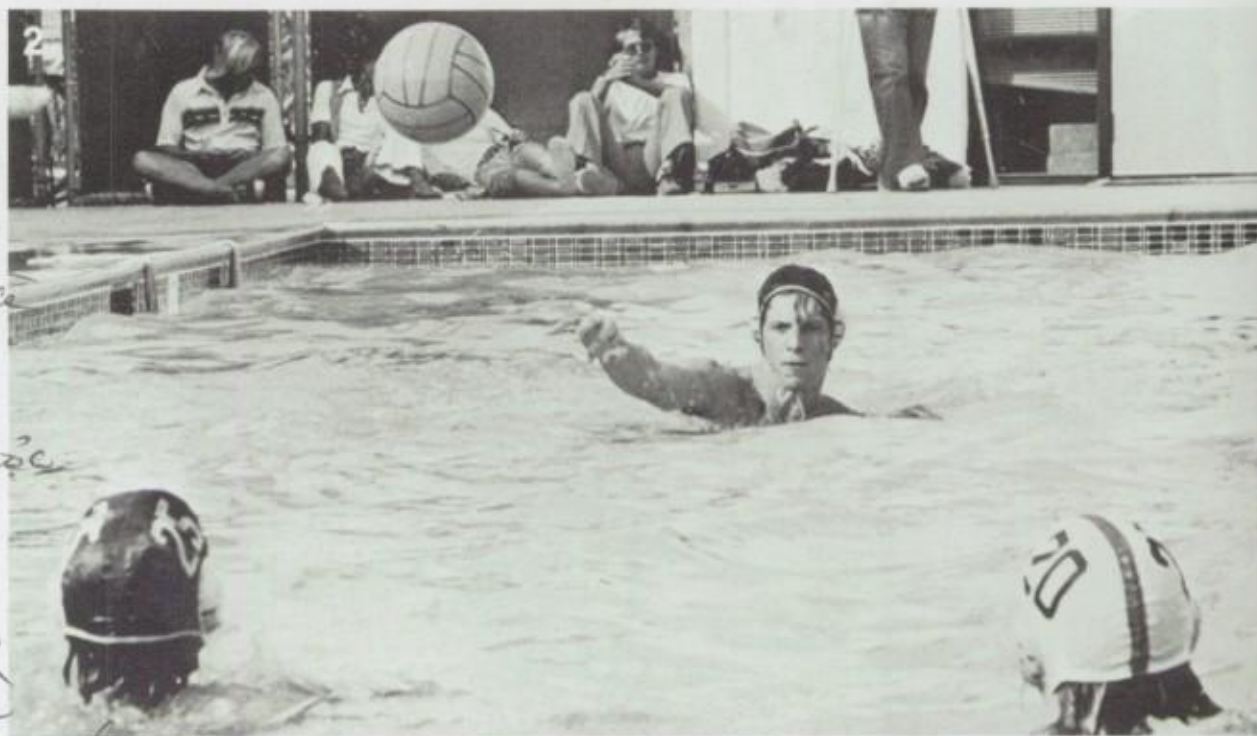

5. Suzanne Gerrion.

H2O POLO IS ON THE GO...

Spirits are rising on the Mira Mesa Water Polo team. Although it hasn't been a winning team the members still enjoy the "plunge" to cool off a hot day. Hopefully with a little extra time and patience we can put together a winning team next year and "knock 'em dead".

The Boogie Woogie Babies!

The head of J.V. cheerleading was Colette Cochran. In order to have a good J.V. squad you must have a good leader and she filled her job well. Teaching and learning new cheers is hard. It takes lots of patience, devotion, and especially spirit. Hopefully we'll see some of this spirit on Varsity next year.

Gymnasts Flip Into Action

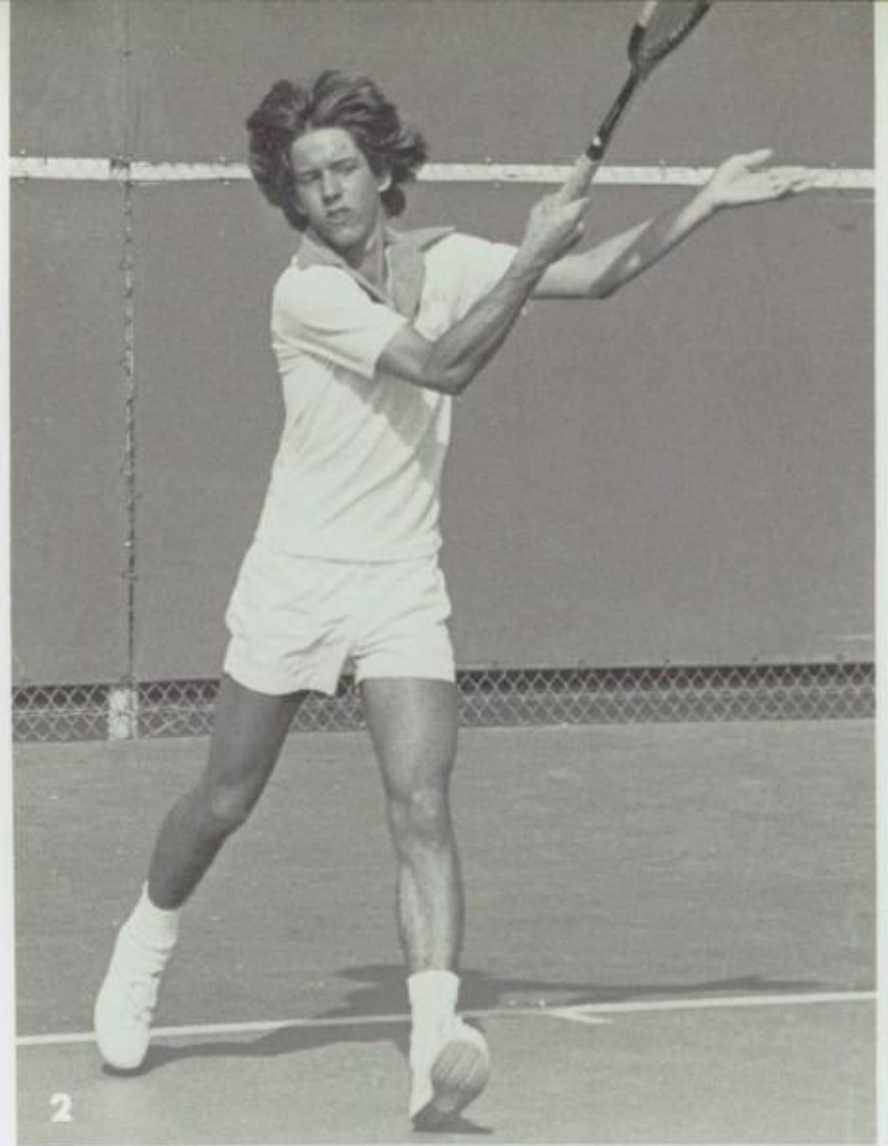

The gymnastic team this year is quite small in size. There are only seven returning members but quite a few new ones. Our J.V. team has little experience but is learning very fast. We have two optional gymnasts who will help the varsity team scores. We expect a good year. Since most of our gymnasts are freshmen, sophomores and juniors our team should improve with age.

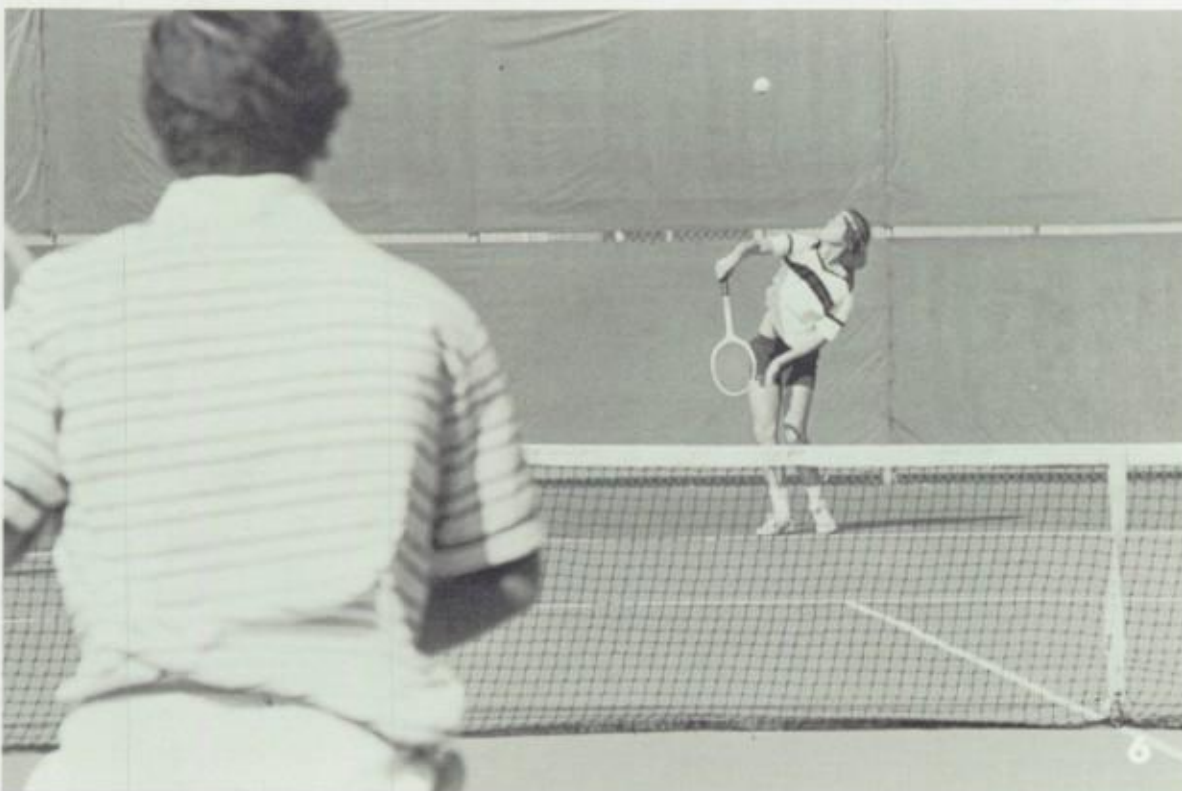

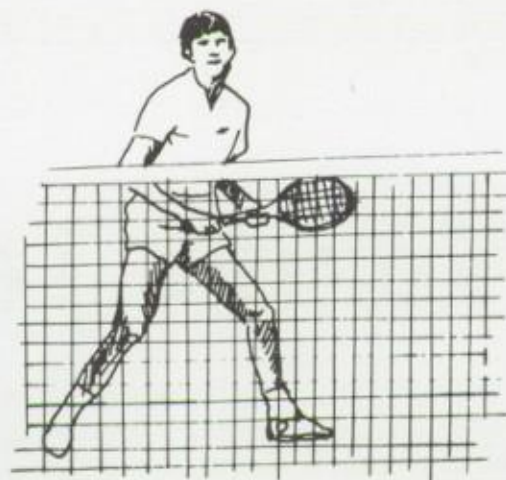

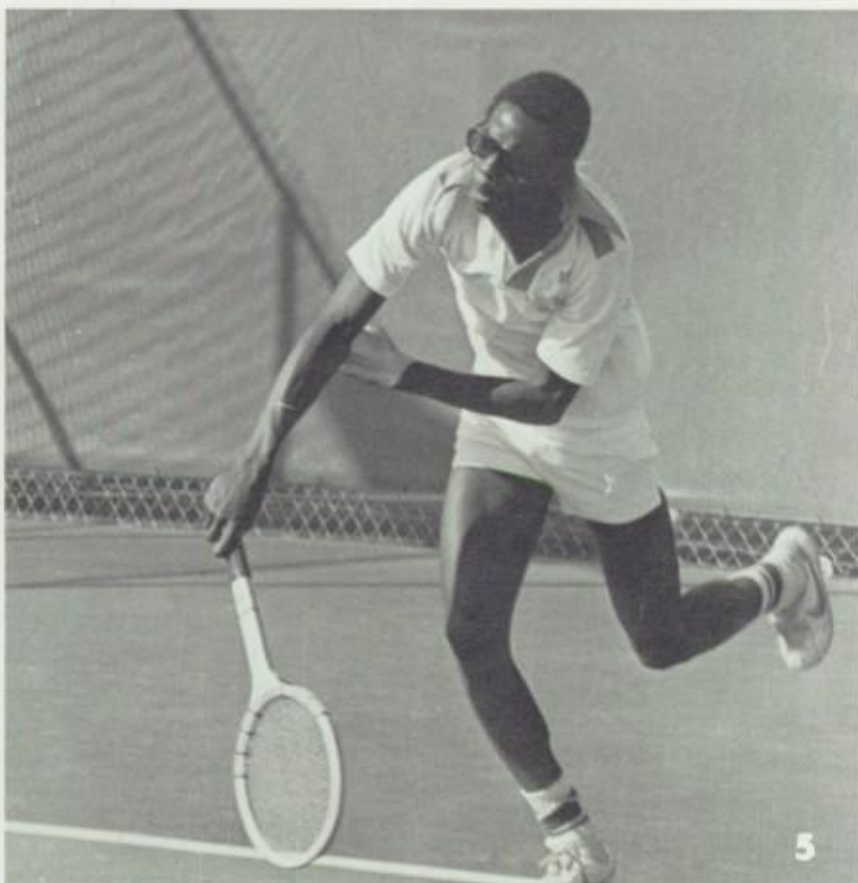

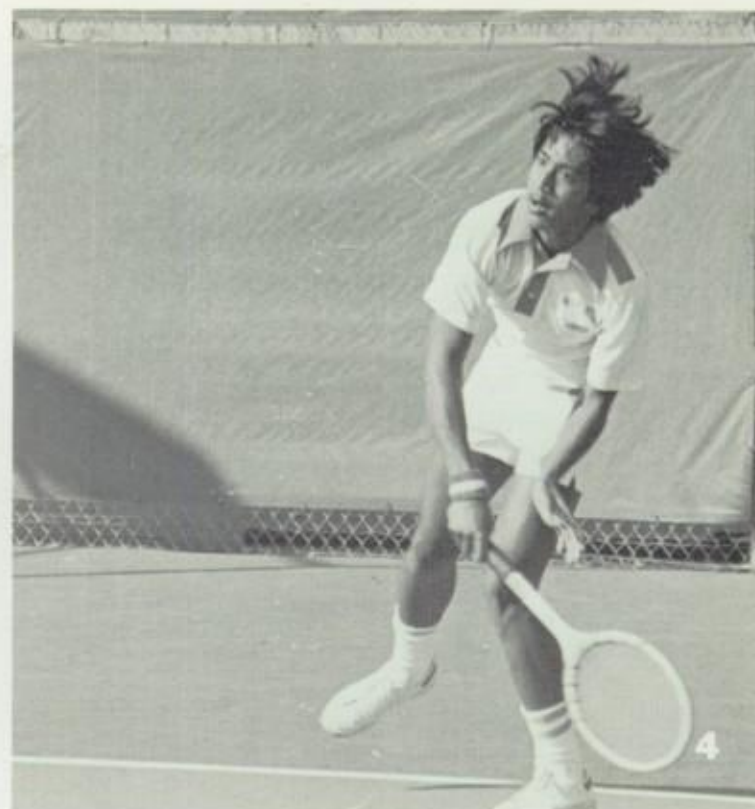

1. Janet Harden leaps across the beam.
2. Terri does a back-flip off the uneven bars.
3. J.V. member Missy Heigle walking-over.
4. Optional gymnast Christy Horne practicing back handsprings.

The Boy's Tennis team this year is great. Last year the team came in third place and this year's hopes to exceed that. There are many returning members who have the potential to become future Jimmy Connors. The new member on the team have had some experience in tennis and show great promise. Hopefully they will all continue next year.

The Mira Mesa Girl's Track and Field team is always among the most favorite in girl's sports. It is popular partly for the sense of individual accomplishment and contribution of each of the team members and also because it is a winning team. The spikettes for 1979 included many outstanding girls such as Torie Dixon (10), Tanya Pierre (12), Madeleine Gaba (12), Lisa Mankins (11) and Dianna Murphy (12) to name only a few.

Many of this year's team were returning for their third year. They remember when in 1977 Mira Mesa Girls Track and Field was the first to be a league champion team for our school. In 1978 the team had many members who competed in CIF competition. What made this team such a winning group? Perhaps the daily workouts assigned by coach Cheryl Mann had something to do with it. Every girl on the team received a personalized workout to complete each day made up of warm-up jogs, stretching and then special activities such as sprints, distance roadruns or jumping. Each afternoon these girls ran and jumped until they were exhausted ...and it really payed off when at a track meet they swept an event or broke a record. This team is among the finest at Mira Mesa High and there is no doubt that they will continue to be winners.

The boy's track team is very popular at Mira Mesa—they had over 100 members this year. However, track is divided into sixteen different events, so everyone gets to participate often.

The team's strength seemed to lie in hurdles, discuss, and sprints, though there was much talent in the other events as well. Many 9th and 10th were on the team this year, and with their added experience, Mira Mesa can look forward to another great year.

Wrestlers

Team work ... That is what this years Varsity team consists of. As a spirited group, they always supported each other by shouting encouragement during matches. The dedication goes as far as teaching others who aren't as good, or those who don't know as many moves. Their hard working attitudes and accomplishments have earned them the Eastern League next year. Of which they, the team and Coach Mills, are all looking forward to.

The ball players this year feel they have the most spirited group of baseball players this school has ever had. The reason, they say, is because more guys went out for both the Varsity and Junior Varsity teams this year than any other year to date. They also feel that the coaches have done an excellent job handling the teams even with the existing problem of trying to keep such a large group together.

Lois DeLay and Jill Lemke are always ready to help students find a job, enroll in work experience or use any of the Career Center materials.

Career Center

The Career Center provides invaluable assistance to many students of Mira Mesa High School. The services offered are numerous: helping students find part-time jobs, providing information on careers and colleges, career counseling and also administering the Career Planning Inventory (CPI). This particular test helps students determine which careers are best suited to their abilities and interests.

Many students have taken advantage of the center's excellent job-finding services. Mrs. Lois Delay has lists of positions currently being offered by San Diego businesses which are an aid in finding jobs for students. After an interview with the student to find out his or her interests, hours available, transportation situation, etc....Mrs. Delay checks with her lists for a probable job. The system is very successful as many happy job-holders will agree.

Viewpoint

by Lisa Ray

It is easy to see the growth that Mira Mesa has made in the last three years. Starting with a framework of very enthusiastic and eager teachers in 1976, it has since become the type of school which will always retain that initial "groundwork."

I have seen teachers and students who have been willing to work and adapt to changes throughout this three year growing period.

It seems that no one has given up—what has failed has been turned around, reworked and remolded, until the failure has become a success. It is a joy to see a student body that cares not only about themselves, but also about the school of which they are a part. There also seems to be a special pride in all the faculty departments. There prevails a feeling that going to Mira Mesa High is indeed a pleasure and an honor.

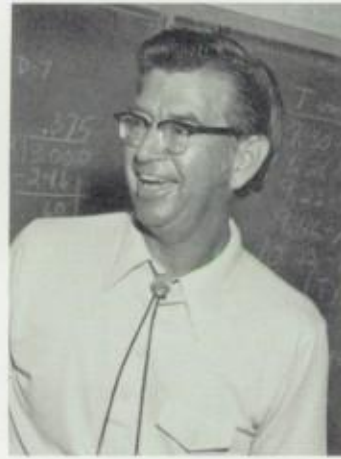

Yes Mira Mesa has made a name for itself! And it wasn't started when the buildings were built... it began through dedication and perseverance. **Mira Mesa High has truly become number 1!**

The picture of Mr. Clarence Thomas was unavailable due to his serious illness at the beginning of the school year.

Putting It All Together...

The Mirada Staff for the 1978-79 school year hope that you will enjoy the faculty section that we have put together. Each year the staff assigns one or two people to work on the faculty section of the book and this year they decided to do a few things differently. Probably the most outstanding change in the section was made in taking the faculty pictures. Mr. John Reyman, a professional photographer, took all of the pictures. As you can see we had good results, but as always, we couldn't help missing a few of the dedicated teachers on campus.

The teachers not pictured are **Bernadine Boysen, Gordon Carter, Richard Clem, Harry Cromer, Donna Deyoung, Ruth Hicks and Sylvia Lee.**

The annual staff would like to extend its apology to these teachers as some of these "missing persons" were a complete accident.

However, two teachers on campus voluntarily chose not to have their pictures printed in the annual. The pictures of Mr. Mike Dupuis and Mr. Michael Hudak will not appear in the annual this year because both refused to allow our photographer to take their picture.

Yes, another year finished! The students have either graduated or else moved on to other grades. What's a teacher to do? Well, I suppose you take a relaxing summer vacation...really rest up and take it easy...and then?...Well we'll see you next September of course!

The Mirada Staff would like to congratulate the graduating class of 1979.

Down Memory Lane

Do you remember the first day of school? The time when you were six. You were so anxious to learn so much, reading, writing and of course, arithmetic. What about the time when you hated all those boys/girls, soon to find out that one of them would be your first crush. Remember sixth grade camp? Were you finally growing up? For some it was the first time away from home, away from PARENTS!

Do you remember the first time you took the city bus to Junior High School? Didn't you get lost?! Junior High was a place to make new friends and learn new ways. School was really different then! So many questions were popping up in everyone's mind. "Who's my counselor? What is a counselor?! What's an admit card? Why did I get this green pass? Where's the bathroom? There's two lunches?!" Remember the first time you ditched? You were filled with so much worry. Did the office call your parents?! But finally the day had come, 9th grade graduation!

Remember when you first came to high school? Boy, what a day! You didn't think the school was that big did you?! Do you remember your first football game? You got so excited over the team's victory. Remember when you got involved with school? You tried out for everything, Sports, ASB, Drill team, Yearbook, Cheerleading and etc.

BUT! Do you remember most of all your Senior year?! Remember: The Sadie Hawkins, Sweetheart's Dance, Gradnight, Student Take Over, Sr. Prom...

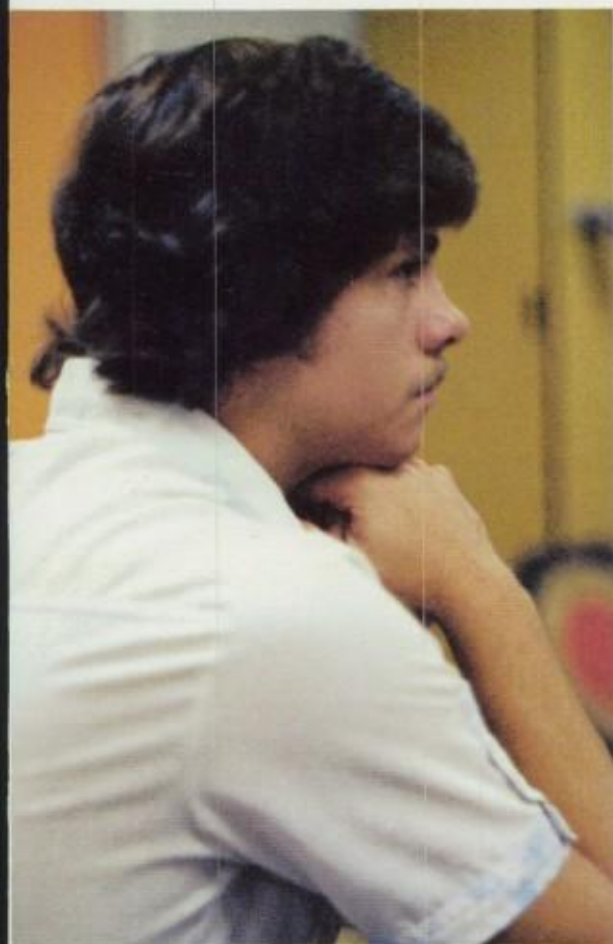

Lunch is over?!

Shake, Shake, Shake, Shake Your Booty!

Meanwhile . . . Ben Herr thinks about the future.

Here we have John Pasenelli thinking about the past.

Herb Fluster

Last spring Jesse DeJesus was elected as Senior Class President. This November he transferred to another school, resigning from his position. Vice President Herb Fluster moved up to fill the vacancy, thereby creating the need for a new Vice President. A primary election was held narrowing the many candidates down to three for the final election. After counting the ballots, Mike Brown was declared our new Senior Class Vice President.

To the Class of '79

As the school year comes to an end
And good byes begin to pour in
The growing pains have not ceased
Yet to cry at your age is a sin
Our seniors depart us with laughter
Yet under it all it is known
That even though smiles are projected
The frowns and tears are not shown

They ridicule organized matters
And jest at the thought of a class.
They bring about thoughts of
misfortune
The fragments of their "broken glass"
But look at their eyes now revealing
How misty their eyes now appear
They realize now it's all over
And shed the first memorable tear.

*Memories of years they have cherished
Years of tears and of joy
Now time has ended the limit,
Of growing . . . the girl and the boy.
The world is out there to conquer,
Our seniors believe it is so
Most of our seniors will make it
The rest will have nowhere to go.*

*So, here's to our seniors, our leaders
Here's to their friendship so rare
Here's to the memories they gave us
For good-byes are too much to bare*

"If Music Be the Food of Love..."

The audience at Mira Mesa's production of "Twelfth Night" probably knew that the actors spend a lot of time memorizing their lines. Somehow, the costumes magically appear, the sets pop up out of the stage and the performance is se. Right? Wrong.

In addition to the basic speaking and memorizing, much rehearsal time is spent working out the "blocking" which is all the positioning, entrances, exits, and every movement the actors make.

Sets and costumes are also a major undertaking. Mr Dennis Morgan and his wife devoted great amounts of time to the costume designing, and then fitting the actors and getting patterns ready. three months were devoted to rehearsals, but the hard work paid off.

*Jim, So you
for me to sign this. I would not
want a nice guy like you (happy, but nice),

We Both Deserve Each Other's Love

"You, you're just as sweet as
peaches and cream
You, must've stepped right out of my
dreams
Cause you and I were meant to be
I, I am a very fortunate guy
Lucky to have you all of the time
You're one of a kind
You know to me you're so fine
I thank the Lord for you and I
We, just you and I that's how it will
be
Let there be nothing stand in our
way
Hear what I say
Because we're both deserving of
Deserving of each other's love
We both deserve each other's love"

VOLLEYBALL SPIKES AGAIN

Standing Coach Buechler, Mike Gersztyn, Tom Rehanek, Mathis Huff, Joe Wolfman.

Chris puts down a tremendous spike.

Last year's volleyball club finished third in the county. With four returning starters, the team was expected to place high in the standings again this year.

People shouldn't confuse the volleyball club with the volleyball team. The volleyball club is a group of students who play the game to have fun. They compete with other clubs from different schools.

There opponents, such as Point Loma and Kearny plus other schools in this area have given the Marauders tough competition. With new talent found this year, Mira Mesa is expected to maintain its winning tradition in San Diego volleyball.

The Drama Club is a group of interested students who like to act in front of an audience and wear outlandish costumes. They meet every monday after school in room 402. Street Masters...

Mira Mesa's Street Masters Car Club was active in different school functions this year. In only their second year of existence, they sponsored a 50's dance and had cookie sales to raise money for their club. Once again they offered their services in driving the Homecoming attendants in the parade.

The club meets every Tuesday after-school, under the direction of Gary Abrams, president, and Mr. Cooper, sponsor and advisor. The members stir up alot of grime and dirt but have great fun doing it.

The FHA club is a nationwide program. The FHA members compete in city competition and the winners go to the semi-finals or county competition. They compete in events such as salad preparation, storytelling, and different kinds of speeches. The FHA, which stands for **F**uture **H**omemakers of **A**merica, has been a nationwide organization for many years. The members attend a regional convention every year and elect members to represent them. The representatives then go to the convention and compete for higher positions of office. The members, which are not necessarily all girls, really enjoy these events, and enjoy competing against each other.

A Song From The Heavens

The choral club has been going strong since our school first opened in 1976. They have put on shows to raise money for extras like costumes for the many plays they put on, and to help the old globe theatre get back on its feet. The choral club would especially like to thank Mrs. Norvada Smedley for her kind help and patience through the years that the choral club has been in existence. The choral club has put on many nice shows. They also do background singing for the drama club plays. Our school has many fine singers- let's keep it that way.

MIRADA STAFF ADDS NEW DIMENSIONS

Have you ever heard the saying I'm going crazy? Well, that's what the majority of the members on the annual staff have been saying all year. Besides trying to design original and un boring layouts, and doing ten things at once, the Mirada staff suffers from malnutrition of the brain. All they can think and utter is deadlines, deadlines, deadlines ... HELP! But above all the Mirada staff has had a lot of fun designing and putting together the yearbook, and are looking forward to seeing the results.

Members are from left to right: Colleen Adrews, Melanie Garcia, Karin Adkins, Kelly Stewart, Christy Horne, Cheryl Kirk, Laura Hoffman, Sue Tobin, Jim Lambert, Joy Harris, Laura Whitaker, Cheryl Ramos, Gary Guerrero, Colette Frick, Kathy Costantino, Jeff Lemaire, Seslie Crusto, Debbie Fridell, Mike Elfers, Mary Ann McCoy, Lina Huff, Brad Lee, Kevin Pannasch, Charlie Joyner (Advisor), Steve Defour, Troy Delle (Editor), Not pictured, Myra Madamba, Cindy Gonzales, Bill Scott.

A.S.B. The Chosen People

The A.S.B. executive Council has been working hard to represent the students of Mira Mesa High. The fourteen members of the council come from all grade levels, this helps in hearing everyone's voice. But what does the Executive Council do? The council is responsible for all clubs, dances, and all other activities. Everything anyone wants to do or sell must be cleared by the council.

When you consider the amount of their responsibilities it is easy to see that they have done a good job.

Have Interest Will Travel With A.I.F.S

The American Institute for Foreign Study, AIFS, gives hundreds of high school students the opportunity to learn while traveling through foreign countries in every part of the world each summer. This is the second year that Mira Mesa has had an AIFS

Last year the AIFS group from Mira Mesa traveled through Italy, Germany Switzerland, France, the Netherlands and England on the "Crossroads of Culture" tour. All of the students received either high school or college credit.

This year's group includes Sue Burwig (12), Melissa Freeman (9), Melonie Hall (9), John Logan (10), Michele Macleod (10), Mike Malone (10), Mike Marriner (11), Laura Whitaker (12) and Ms. Harriet Marriner. They are to leave on June 29th and spend a total of five weeks abroad on the "Traditions of Scotland" tour. Two and a half weeks will be spent in Scotland at

the University of St. Andrews. Of the remaining time, one week will be on a cruise of Corfu, Crete, Rhodes, Athens, and Venice. Shorter stays are planned for London, Florence and Rome.

The aim of AIFS is to give its students the broadest possible contact with the culture of foreign countries and to develop the maturity and potential of students by giving them an opportunity for responsibility and self-discipline.

Bon Voyage!!!

THINK SNOW

The ski club is a large and highly popular group here at Mira Mesa. It consists of two teachers and fifty students all with one interest in common, skiing the slopes. Their goal is to raise enough money to soften the costs of the trip to Mammoth. Besides skiing, they also have parties, raise money by putting on car washes and paper drives, and have just an all around rowdy time. The ski club meets during intercom to plan their adventures and sometimes have night meetings. Their fearless leaders, Andy Jankovich and Nick Bohl both agree that the Mammoth trip was truly the highlight of the whole year.

For Members Only

Jim,

Alan Jay Cheyko

I've come to think of you as a brother. And it was fun having you in psych. What was even more fun was putting on your make-up for twelfth night, etc. You're a good patient, with me stick-ing my fingers in your eyes, & nose and so on and so on etc. It's really hard to write in an annual and I never think of the things I want to say. Keep in touch always.

Love
Always,
